The notice shall also be given to the beginning teacher's principal and superintendent.

(b) The notification to the teacher shall contain the teacher's initial practitioner license, with a new expiration date that allows participation in the extended assessment program during the first school year following the assessment program. It shall also include a statement of intent form for the beginning teacher to complete and provide to the school where the extended assessment program will be completed.

Sec. 13. (a) The initial practitioner license shall be valid for one (1) two-year period, which begins no later than the fourth school year after its issue date, in order to ensure completion of the two (2) years of an assessment program within five (5) school years following completion of a preparation program. Delays between the effective date of the initial practitioner license and the first year of the assessment program would have the following effects on later interruptions in service:

(1) A delay of one school year would allow the teacher a total of four remaining years to participate in the two (2) year assessment program.

(2) A delay of two (2) school years would allow the teacher a total of three (3) remaining years to participate in the two (2) year assessment program.

(3) A delay of three school years would allow the teacher two remaining years to participate in the two (2) year assessment program.

(4) A delay of four (4) or more school years would not allow the teacher to participate in an assessment program. An additional assessment and recommendation from a preparing institution would be required to receive a new initial practitioner license.

(b) An interruption of one (1) school year between the first and second years is permitted. Interruptions during the assessment program cannot extend the time limitations in subsection (a). An interruption of more than one (1) school year requires the teacher to repeat the first year.
